Description of Classes:

Beginner Class (Dogs will be working in a secure fenced area)

1. Introduction to Quarry - Your dog will meet the quarry and go through a tunnel on top of the ground. Dogs progress at varying rates as their instincts become stronger.
2. Dogs are encouraged to enter a 10 foot tunnel, which is above the ground, and find their quarry at the end.
3. Dogs are encouraged to enter a 30 foot tunnel, which is above ground and has multiple turns and find their quarry at the end.
4. Dogs will have the opportunity to enter a 10' tunnel which is buried underground (dependant on how comfortable they are with above-ground tunnels).

Advanced Class (Dogs will be working in a semi-secure area, however a determined dog will be able to escape)

1. Dogs are encouraged to enter a 10 foot tunnel which is buried under ground and has multiple turns and find their quarry at the end.
2. Dogs will have the opportunity to enter a 30' tunnel buried underground.
3. Trouble-shoot dog - specific issues, such as insufficient time working the quarry, running above ground to quarry rather than through the tunnels, multiple entrances and recalling from quarry.

If you are not sure which level to enter, contact Deb d.mahon@sympatico.ca or Sue suegodbehere@gmail.com

Bring to class: sturdy leash and plain buckle or snap collar, wire kennel cage (optional) and plenty of treats and water for you and your pet. As there is minimal shelter available, you may also wish to bring a tent.

Please leave flexi-leads, choke, and pinch collars at home. Dogs must be on leash at all times while on the property, except during specific exercises within the fenced areas.
