Maximizing Conception in the Bitch

Date: Saturday, November 12, 2011

Come and spend an informative and enjoyable day learning from the leading expert in canine reproduction. Dr. Hutchison is a Reproduction and Genetics consultant for the Veterinary Information Network, and is co-director of the Animal Clinic Northview Inc. in North Ridgeville, Ohio. He is also the president of the International Canine Semen Bank of Ohio, and

advisor for the College of Veterinary Medicine students interested in small animal theriogenology from Ohio State University, Virginia Tech, Purdue, Tufts and Michigan State University. Dr. Hutchison is the author of many articles on canine reproduction in various breed journals and magazines, including “Canine Frozen Semen,” “Improving the odds of Having Healthy Puppies,” “Treatment of Pyometritis in the Bitch Using Prostaglandin F – a Hypo-thyroidism,” and “Female Reproduction.”
