

**Spiritdance Tracking: Coaching for Success
2015 – Year of the Blind Track!
6 months – 6 sessions: April - September**

Let's get ready for tracking tests. Seriously – let's get together and plot, lay tracks and follow each other until we can do it in our sleep. Let's make it so routine that a test is just another day tracking. That's the goal this summer for both field and urban tracking. Blind tracks are not easy – it takes faith in your tracklayer, a well-plotted track, and ability to read your dog and the conditions. **Don't leave it to chance! Come to structured sessions to learn, be videotaped, and critiqued.** Option of one lesson between will help focus on what was observed in each session (booked separately).

- Field Saturdays / Urban Sundays
- Monthly Sessions – videotaped and critiqued
- Ongoing regs review for CKC tracking tests
- Lessons between to tweak what we learn from blind tracks
- **Beginner?** Please contact me for individual lessons to get started. You are welcome to learn to plot and lay tracks at these sessions at a reduced rate with no dog.

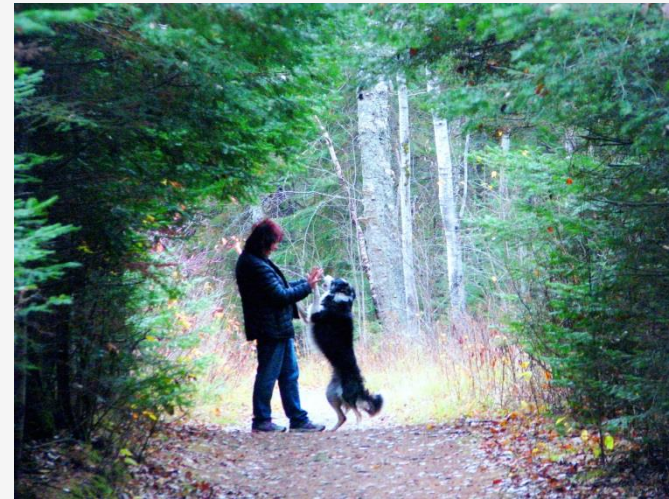

Please note the dates and details on page two. Pre-registration and payment by the deadline is a requirement for each monthly session to keep your spot. Spots will be limited to 6 teams per day.
