EYE EXAMS

The attached schedule lists the approximate time your dogs should receive their eye drops. Drops should be in the dog's eyes for 15 to 20 minutes prior to the examination with Dr. Grahn. The exception to this is if you have registered for a glaucoma exam. Dogs having glaucoma exams must be seen by Dr. Grahn prior to having drops - they will see him again after 15 - 20 minutes minimum.

HEART EXAMS

NEW LOCATION

The clinic is being held @ a new location this year: Two Paws Up –Unit K, 9827 Horton Road, CALGARY, Ab.. The location is a little tricky to find and we would suggest that you have a look on Google maps. The building is behind (west) of Cal-Alta Auto Glass (they have a prominent red & white sign).

Please remember this clinic is managed by volunteers. As always, we will do our best to keep things rolling along. As repeat attendees know, our schedule is a guide and is not carved in stone.

If you need any help at the clinic, please do not hesitate to ask.

Log into dogshow.ca for your receipt which has 'an armband number' and find the number on the schedule.
