

Calgary Kennel & Obedience Club

Instruction Sheet

1. **Fill out** participant section of registration form. One form per participant. Each participant needs an individual registration forms.
2. **Attach COPY** of CKC Registration Certificate for the dog you are having tested.
3. **Cost** of the 2 day seminar is \$75.00 per participant.
4. **Dr. Marco Bregliano**, an instructor at U of C, will speaking and have a power point presentation Saturday on the following topics and will offer course credits on this seminar.
 1. Ovulation timing
 2. Progesterone / vaginal smears
 3. Artificial insemination Pros and Cons of each method available
 - Vaginal
 - Transervical Insemination
 - Surgical Insemination
 4. Semen quality Pros and Cons
 - Fresh Collection
 - Fresh Chilled
 - Frozen
 5. Pregnant Bitch Care and Management
 6. Signs and signals of distress - when is a C Section necessary.
 7. Newborn Care - the first 48 hours
 8. Questions from the attendees.
5. **Prenatal Packs** include everything you will need close at hand when whelping your litter.
6. **Canine Fresh Frozen Plasma** will provide a source of plasma proteins for debilitated animals with systemic illnesses and for new born puppies. This gives puppies instant antibodies from Hemopet Blood Donors. Hemopet's donor dogs are healthy animals maintained at the Hemopet facility in an isolated, closed colony environment. Vials are frozen upon arrival and need to remain frozen until they are used.
7. **Dr. Anne Greenbank** will be on site for **Semen Collection** all day Saturday and then wrap up our seminar on Sunday when she will educate us on Collection, Storing, Documentation, Shipping, Receiving, Importing and Exporting Semen. There will be lots of opportunity for Q & A. The semen collection includes: The Collection (1 – 4 vials), Brucellosis Test, 1st year storage and all Documentation.

8. **Genetic Testing** is extensive; we are offering blood and cheek swab testing. See the attached sheets for the tests available, the cost of each test. There will be discounts for additional dogs, per test and complete litters.

Once we have reached 20 dogs per test, additional discounts will apply.

Payment must be by credit card and will be processed (with discounts) after Aug 1st,

- Review test order form from each of the companies represented
- Pick the tests you want
- Transfer the tests to the short list on the back side of the registration sheet. Double check your list, addition and sub-totals.
- Attach a COPY of the CKC Registration for the dogs you are testing
- Send all documents to Della Kyncl by mail, fax or email
 - Box 367, Cremona, AB., TOM ORO
 - 403-335-3724 (fax)
 - winauby@telusplanet.net

9. **Reiki** is a Japanese technique used to restore order to the body whose vital energy has become unbalanced. Reiki promotes healing by allowing the one who is getting "treated" to draw in the energy needed as an active recipient, giving instant pain relief. It is a great alternative therapy for dogs and people. We are very fortunate to have a Reiki Master on site to give you or your dog "hands on healing" that will revitalize and refresh. Be sure you jot down the times that will work for you so we can schedule your personal session.

10. **Camping** is available from Friday afternoon to Sunday afternoon at a cost of \$10.00 per unit. There are a few electrical plug-ins available and will be given out on a first come, first serve bases.

11. **Roast Beef Dinner** will be served on Saturday night, giving us a chance to socialize and relax. As always, we will be serving a continental type breakfast, lunch and snacks thru out the day. Please note if you are vegetarian on your registration sheet, so we can accommodate your dietary requirements.

12. **Early Bird Registration** and pay in full, before July 1st to receive a 5% discount. 20/20 Discounts will apply only if the 20 tests required have been achieved.

13. **Be sure you add** all the fees for a total and sign the registration. Take advantage of the early bird discount, the multiple dogs, multiple tests and multiple savings.

14. **If you** would like your **microchip implanted**, bring the necessary documentation and microchip with you. We will finalize the documentation, scan and implant.

15. **There** will be a 10% administration fee added to the total, when the credit card is processed.

Thank you for supporting this CKOC seminar, we appreciate it.

Genetic Testing Work Sheet

BREED	TEST	GENETIC TEST	COST	TOTALS	LAB	Method
Airedale		Factor VII factor seven deficiency	\$65.00		VetGen	Swab
Alaskan Klee Kai		Factor VII factor seven deficiency	\$65.00		VetGen	Swab
Alaskan Malamute		Cone Degeneration - cd(m) test	\$160.00		Optigen	Blood
American Bulldog		NCL neuronal ceroid lipofuscinosis	\$65.00		VetGen	Swab
		PFK phosphofructokinase deficiency	\$65.00		VetGen	Swab
American Eskimo Dog		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
American Pit Bull Terrier		Cone Rod Dystrophy (crd2) - crd2 Test	\$120.00		Optigen	Blood
		Neuronal Ceroid Lipofuscinosis - Cerebellar Ataxia (NCL-A)	\$150.00		Optigen	Blood
Am Staffordshire Terrier		Neuronal Ceroid Lipofuscinosis - Cerebellar Ataxia (NCL-A)	\$150.00		Optigen	Blood
		HU hyperuricosuria	\$65.00		VetGen	Swab
Australian Cattle Dog		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
		PLL primary lens luxation	\$65.00		VetGen	Swab
Australian Shepherd		Canine Multifocal Retinopathy - CMR1 test	\$95.00		Optigen	Blood
		Collie Eye Anomaly/Choroidal Hypoplasia - CEA/CH test	\$180.00		Optigen	Blood
		Cone Degeneration (cdm) - cd(m) test	\$160.00		Optigen	Blood
		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
		HU hyperuricosuria	\$65.00		VetGen	Swab
Australian Shepherd, Mini		Canine Multifocal Retinopathy - CMR1 test	\$95.00		Optigen	Blood
		Collie Eye Anomaly/Choroidal Hypoplasia - CEA/CH test	\$180.00		Optigen	Blood
		Cone Degeneration (cdm) - cd(m) test	\$160.00		Optigen	Blood
		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
Australian Shepherd, Toy		Canine Multifocal Retinopathy - CMR1 test	\$95.00		Optigen	Blood
		Collie Eye Anomaly/Choroidal Hypoplasia - CEA/CH test	\$180.00		Optigen	Blood
		Cone Degeneration (cdm) - cd(m) test	\$160.00		Optigen	Blood
		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
Australian Stumpy Tail		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
Basenji		Pyruvate Kinase Deficiency - PK test	\$80.00		Optigen	Blood
		PK pyruvate kinase deficiency	\$65.00		VetGen	Swab
Beagle		Factor VII factor seven deficiency	\$65.00		VetGen	Swab
Bedlington Terrier		CT -marker+deletion copper toxicosis	\$65.00		VetGen	Swab
Bernese Mountain Dog		Type I vWD type I von Willebrand's disease	\$140.00		VetGen	Swab
Black Russian Terrier		HU hyperuricosuria	\$65.00		VetGen	Swab
Boston Terrier		JHC cataract - hereditary, juvenile	\$45.00		VetGen	Swab

Genetic Testing Work Sheet

Bulldog		HU hyperuricosuria	\$65.00		VetGen	Swab
Bull Terrier		Hem-B hemophilia	\$45.00		VetGen	Swab
Border Collie		Collie Eye Anomaly/Choroidal Hypoplasia - CEA/CH test	\$180.00		Optigen	Blood
		Neuronal Ceroid Lipofuscinosis - CL Test	\$95.00		Optigen	Blood
		Trapped Neutrophil Syndrome - TNS Test	\$95.00		Optigen	Blood
Boykin Spaniel		Collie Eye Anomaly/Choroidal Hypoplasia - CEA/CH test	\$180.00		Optigen	Blood
Briard		Congenital Stationary Night Blindness - CSNB test	\$135.00		Optigen	Blood
Bullmastiff		Canine Multifocal Retinopathy - CMR1 test	\$95.00		Optigen	Blood
		Progressive Retinal Atrophy - Dominant test for PRA	\$120.00		Optigen	Blood
Cane Corso		Canine Multifocal Retinopathy - CMR1 test	\$95.00		Optigen	Blood
Cardigan Welsh Corgi		Progressive Retinal Atrophy - rcd3 test for PRA*	\$80.00		Optigen	Blood
		PRA progressive retinal atrophy	\$65.00		VetGen	Swab
Chesapeake Bay Retriever		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
Chinese Crested		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
		PRA progressive retinal atrophy	\$65.00		VetGen	Swab
		Type II vWD type II von Willebrand's disease	\$140.00		VetGen	Swab
Clumber Spaniel		PDP1 PDP1 deficiency	\$65.00		VetGen	Swab
Cockapoo		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
Cocker Spaniel (American)		Phosphofructokinase Deficiency - PFK test	\$80.00		Optigen	Blood
		PFK phosphofructokinase deficiency	\$65.00		VetGen	Swab
		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
Collie		Collie Eye Anomaly/Choroidal Hypoplasia - CEA/CH test	\$180.00		Optigen	Blood
		Progressive Retinal Atrophy - Rod-Cone Dysplasia Type 2	\$180.00		Optigen	Blood
		CN cyclic neutropenia	\$65.00		VetGen	Swab
		Type II vWD type II von Willebrand's disease	\$140.00		VetGen	Swab
Coton de Tulear		Canine Multifocal Retinopathy - CMR2 test - \$95	\$95.00		Optigen	Blood
		Type I vWD type I von Willebrand's disease	\$140.00		VetGen	Swab
Dachshund		Narcolepsy - NARC test	\$130.00		Optigen	Blood
Doberman Pinscher		Narcolepsy - NARC test	\$130.00		Optigen	Blood
		Type I vWD type I von Willebrand's disease	\$140.00		VetGen	Swab
		DCM dilated cardiomyopathy	\$65.00		VetGen	Swab
Dogue de Bordeaux (French Mastiff)		Canine Multifocal Retinopathy - CMR1 test	\$95.00		Optigen	Blood
Dwarf Poodle		Progressive Retinal Atrophy - prcd Mutation Test for PRA	\$195.00		Optigen	Blood
