

The Eastern Ontario Labrador Breeders Association is pleased to offer the following Seminar:

Breeding Better Dogs

Carmen Battaglia

Saturday April 9th and Sunday April 10th, 2011
9:00 to 5:00

Ramada Inn (613) 771-3184 1-800-420-3555
11 Bay Bridge Road Belleville, Ontario K8P 3P6

The Cost is \$149.00 for the two day seminar (see details on back for EARLY BIRD DISCOUNT)!

Registration includes the Book - Breeding Dogs to Win!

Registration also includes morning and afternoon refreshments and lunch.

If you require accommodations we have negotiated a reduced room rate at the Ramada Inn. The special reduced rate is \$94 per night which includes a hot breakfast (for up to two people per room) at their in-house Restaurant.

How can anyone take a highly sophisticated, scientific and technical subject like genetics and make it not only easy to understand but even fun? Ask Dr Carmen Battaglia. That's just what he has been doing for the past 25 years, to the amazement and delight of the dog-breeding world. He calls his system "Breeding Better Dogs" and it works.

His seminars and materials provide breeders with an easy method for understanding the pedigrees of their dogs. It is based on the use of "Stick Dog" figures, and a "Symbols Pedigree". Both offer new ways to visually represent the strengths and weaknesses of a dog's traits. By utilizing these simple methods, it is easy to determine which characteristics will be retained and which ones will be needed in a stud dog.

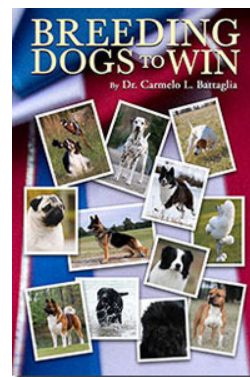

Now you can learn how to enhance the genetic qualities of your bloodline. The result is an ever improving program that can produce dogs that WIN! Dr. Battaglia holds the Ph.D. and Masters degree from Florida State University. He is a breeder, author, researcher and lecturer and has worked at Emory University, Florida State University, DeKalb College and the University of Tennessee Space Institute.

He has authored many books and articles which have appeared in the AKC Gazette, Canine Chronicle, Dog World, Dog News and in publications throughout Canada, Hungary, South Africa, Australia, New Zealand and Ireland.

This seminar will focus on Breeding Better Dogs. This seminar includes a hands-on session with dogs which are used to demonstrate structure and correct shoulder placement (lay-back, lay-on, length of upper arm). Additionally, a video called "GAIT" is used to demonstrate correct movement and structure.

Core topics include the following:

- Eight breeder skills
- Tools available to breeders
- Analysis of pedigrees
- Selecting sires and dams
- Evaluating litters
- Choosing the best puppies
- Feeding and managing pups kept by breeders
- Developing a useful record system

Certificates will be provided to all participants. You do not have to be an E.O.L.B.A. member to attend this seminar. Don't miss out on this incredible opportunity!

EARLY BIRD DISCOUNT

If you send in your registration form and cheque before January 31st, 2011 you will save \$30!

THIS SEMINAR WOULD BE A GREAT IDEA FOR A CHRISTMAS GIFT!

If you'd like to give this seminar as a Christmas Gift to that special dog person in your life – just give us all the details about who it is for and we will send you a gift certificate.
