Earning Points:

The dog's time to complete the 100-meter dash is converted into kilometers per hour (kph). A handicap system is applied to a dog's kph to determine the number of points earned. The handicap system is based on the height of the dog at its withers:

- 18” or greater – handicap is 1.25
- 12” up to less than 18” – handicap is 1.5
- Below 12” – handicap is 2.0

Points – 360 divided by the dog's time produces the dog's kph which is multiplied by the dog's handicap to result in the number of points earned.

**Please be sure to enter the correct height category.
If you are unsure of your dog's height, please measure them.**
