

Not all gambling is reserved for the casino!

This is a special Agility “game” in which each obstacle is assigned a point value.

In the *OPENING*, you and your dog have a set timeframe to rack up as many points as possible before a buzzer sounds, signalling you to the next phase of the course.

In the *CLOSING* you must hurry to complete a numbered obstacle sequence at a distance from your dog. Be careful though -- stepping on the distance line will end your run!

A fun game of strategy and timing... are you ready to Gamble???

Based on the pool table game by the same name, in Snooker you and your dog work together to complete obstacles of your choosing (each with a specific point value) in a Red-Colour-Red-Colour-Red-Colour sequence.

When you're done, you move on to a 6-obstacle numbered obstacle sequence set by the judge.

Be careful though... choose an obstacle of the wrong colour and your turn ends abruptly!

Oh... and time is ticking!!!

AGILITY *Games* WORKSHOP

MAY 3, 2025, 4-8PM

**INDOORS ON TURF AT
RAW4DOGS ARENA,
ELMVALE, ONTARIO**

Come learn strategies and skills for success in Gamble and Snooker!
