Alayne Madill

Alayne Madill (Herzog) is a native born Albertan that grew up around the farming community of Crossfield. Introduced to Labrador Retrievers at the age of 10, Alayne has enjoyed Labradors in her life since. Starting a small breeding program in 1997, Alayne has spent most of her adult life refining that program under the kennel name Labralayne. Its goals are to produce healthy Labradors that are excellent representatives of the breed standard. She has enjoyed competing with Labradors in conformation, obedience, and field. Keeping up with breeding and conformation showing, she took some time away from obedience and field work to raise two young children. Alayne has enjoyed getting back into competitive obedience and looks forward to re-engaging in field work again in the spring. Alayne has worked in the field of Veterinary Medicine for over 25 years and is a Veterinary Technician Specialist in Anesthesia and Analgesia. Labrador Retrievers are not the only breed of dog that share her home, she also breeds French Bulldogs, has two Cornish Rex cats and an umbrella Cockatoo as pets.

Brian Proctor

I have a long-standing relationship with Labradors. I got my first Labrador in 1960 when I was only days old. Pat was my constant companion for the first 13 years of my life and really is the start of my love affair with dogs in general and Labradors in particular. Of course, Pat was a black bitch. My family also had an Irish Setter, Toy Poodle, and a few shepherd/husky crosses growing up. My love for dogs likely comes from my father who was a letter carrier for the post office. He often had dogs that would wait for him at the bus stop and would accompany him on his delivery routes every day before returning home.

Lorie and I purchased our first home when we were transferred to Comox on Vancouver Island in 1991 and could finally get a dog. We decided on a Labrador Retriever. Our first dog was a chocolate female named Brook. We took Brook to obedience class and were able to compete for unofficial titles on Vancouver Island.

When I was transferred to Vancouver we could no longer compete with a non registered dog. We contacted numerous breeders across Canada and Washington State. We settled on a chocolate female puppy bred by Linda Squires and Nina Mann, Ch Sunnydaze Western Skye CD. This was really the start of our journey in the Pure Breed dog fancy.

After having a few very successful litters we were fortunate to meet Mary Wiest (Beechcroft Labradors) and we imported a 9 week old black bitch puppy who became Am/Can Ch MBOSS Beechcroft Rumor Has It WC out of Beechcroft and Lindall lines. Rumor went on to BOS at the 2001 National Specialty, as well as numerous other specialty wins including best gun dog at the 2005 National Specialty.

Rumor and then later her cousin Pride (Am Can Ch Beechcroft's Pride of High Society) are behind all of the dogs in our household now. We have been fortunate enough to have owned or bred 11 American Champions and many, many more Canadian Champions.

Our most successful Labrador in the show ring was MBISS MBPISS Am/Can Grand Ch Cambridge Points North aka Compass. He was BPISS at the National in 2010 and then followed this up by winning the LRCC National in 2014. He was also the number one Conformation Labrador in 2014. We are known as primarily breeders of Blacks and Chocolates but have had a few yellows over the years.

For me when judging dogs, I look for a balance of type and movement; it is important to not lose the purpose that our dogs were originally bred for.

I have judged sweeps in BC, Alberta, Washington state and New Jersey.

Match start time: 30 minutes from completion of RDDKC show BIS judging.

Arm band numbers will be available at ringside as the match starts.

CKC rules governing this match:

- 16.2.1 Only recognized or listed breeds may compete (no listing fees need to be paid
- 16.2.3 Dogs entered must be handled by the owner or member of his family or a person who DOES NOT receive any monetary consideration.

CKC SANCTION MATCHES ARE A TRAINING GROUND FOR NEW CLUBS, JUDGES, STEWARDS, HANDLERS AND DOGS. COME OUT AND SUPPORT LRCA IN ITS QUEST TO ASSIST ASPIRING CONFORMATION JUDGES.

Please be responsible for your dog. For the safety of all dogs and exhibitors we ask that you keep a diligent eye on your dog always. Outside the ring we ask that you keep your dog in a crate or on a short leash and under control.

FAILURE TO PICK UP AFTER YOUR DOG OR ALLOWING IT TO URINATE WITHIN THE TRIAL PRECINCTS WILL RESULT IN DISMISSAL FROM THE MATCH.
