WHAT ARE RAT SPORTS?

Rat sports are based on hunting and teamwork skills. Historically, rat catchers and their dogs offered their services to farmers to control vermin, helping to conserve and to preserve their grain and consequently protect the inhabitants from disease. The purpose of the RATS! Canada games is to demonstrate teamwork between the handler and dog team. The dog must display his vermin hunting ability by finding and signaling the presence of rats in a barn-like or field-like setting in which straw/hay bales are used. The handler must display his ability to read the dog's signal.

TRAINING/PRACTICE/WORKSHOPS/FUN MATCHES

All information for RATS! Canada events can be found on a Facebook group called "**RATS! Canada (canine rapping sports association)**", so be sure to join the Facebook page to be informed of all events, in order to learn and practice the sport.

Rules for all RATS! Canada games can be found on the Web site at
<http://www.ratscanadadogsports.com>

BRUSH HUNTING

Brush Hunting relies completely on your dog's ability to locate a live quarry. Brush Hunts are usually held outside in a wooded or fallow fenced area. The size of the area is determined by the level of difficulty. The higher the level, the bigger the area the dog must search. One or two tubes containing a live rat are used for this event depending on the level of difficulty. The tube must remain in the same position for every team at the same level, and the handler is told where the quarry is before competing. The tube is completely out of sight, covered slightly in leaves or branches or straw. **The judge stops the timer when he considers that the dog indicates, in a satisfactory fashion, the presence of the rat.**

Two (2) minutes are allocated to find the rat. Depending on the level of difficulty, the time that the dog must work alone while the handler remains in the start box, and waits for permission to move around the ring varies. The time required to obtain a qualifying score (Q) varies from 80 to 60 seconds based on the level of difficulty. Under no circumstances may the handler touch the dog, the bales or the tube(s) while the dog is working, as this will result in automatic disqualification. Completing a run in less than 2 minutes is considered a "pass", and scores will be used for placement. Qualifying in the dog's first or second sanctioned novice brush hunt run leads to a Brush Hunt Instinct Title.

Please pick up after your dog(s) and yourself.
THANK YOU IN ADVANCE FOR YOUR COOPERATION!

Please do not allow your dogs to pee on the house, outbuildings or vehicles.

BARN RATting

Barn ratting requires good communication with your dog, as well as your dog's ability to discriminate odors and live animals. Depending on the level of difficulty, three to eight tubes may be used. These can be empty, or containing either rats and/or rat litter. The size of the area is determined by the level of difficulty. Tubes are hidden between bales of hay. The end of the tubes must be in plain view of the handler and the judge, being more or less visible depending on the competition level.

The team is allocated 2 minutes to find the rat/s. The handler can give one verbal command then must remain silent for the first 30 seconds or more while the dog hunts. When the judge gives their permission, the handler may encourage and direct his dog verbally. **The handler is responsible for calling 'Rat!' to the judge**, when he believes that his dog has found a rat, which stops the timer. Should the team be in error and have identified a tube incorrectly, the timer will continue, and 5 seconds will be added to the final time. You may only touch/pet your dog shortly after he has found a rat tube. The tube(s) where the rats are hidden are switched places for each blind of participants, to ensure participants are not aware of the tube location(s). Completing a run in less than 2 minutes is considered a "pass" and goes for placement, but the rat(s) must be found within 90 seconds to earn your qualification. Qualifying in a dog's first or second ever sanctioned novice barn hunt run leads to a Barn Ratting Instinct Title.

TRAILING AND LOCATING

Trailing and Locating reproduces the scent tracking and location of quarry in a natural environment. The dog will be judged on its ability to track a set scent trail in an outdoor setting. The dog must track, locate and mark the presence of the quarry. The handler must follow the dog and not guide or restrict the dog in any way.

A scent trail is laid using rat litter that has been steeped to create liquid. The dog must follow the scent trail closely and **not veer off the laid trail**. Depending on the level, the track will have a set number of turns, and may have sharp turns, dead ends, and used litter "nests". The dog must make it to the end of the track and find and "mark" the rat. The judge indicates when the dog has marked the rat for a sufficient time.

TEAM RELAY

The object of the game is for two teams of dog/handlers to each find a rat in a brush hunt setting in the same ring.

The protocol is the same as in Brush Hunting. You may issue a single verbal command to your dog upon its release, after which you must be silent. As usual, the judge will stop the timer when they deem that the dog has shown that they have found the rat to their satisfaction. **THE TIMER WILL BE STOPPED** when the first rat is found. The handler must collect their dog quickly, and return to their start box area with their dog on leash or otherwise under control. The handler will then advise their team member that they are done, and check that the judge is ready to continue. When the judge gives permission, the second handler will then release their dog, issuing a single verbal command. The timer re-starts when the second dog leaves the start box.

ANYONE FOUND DISPOSING OF CIGARETTE BUTTS ANYWHERE ON TRIAL GROUNDS WILL BE ASKED TO LEAVE IMMEDIATELY WITHOUT REFUND.

RAT CARE AND SAFETY

RATS! Canada is committed to the humane treatment of rats used at all RATS! Canada events. Rats are rotated out as necessary based on weather conditions and other factors. Rats are chosen and trained specifically for the sport. Tubes used are built for dog AND rat safety according to specific rat care rules. Rats will not be harmed in any way during or at the end of the trial; they are returning home to be as cared for and loved as dogs can be. Please [report to RATS! Canada](#) any concerns or unacceptable treatment you witness in any rat sport event so we can follow up.

Trial Information

This sanctioned trial is held under RATS! Canada rules and regulations. All events are RATS! Canada recognized and approved. Rules and regulations are available on the RATS! Canada Web site. A hard copy will be available at the secretary's table for consultation during the event. All dogs must be kept in an x-pen, crate or on leash when not in the ring. Any dog engaging in aggressive behavior at any time will be required to leave trial venue. In such cases, no refund of fees will be paid.

PLEASE NOTE:

- The running order will be made up in advance. You are expected to be present at the secretary table, or nearby, at the time you are scheduled to run. If you are not present for your scheduled runs, you will be bumped to the end of the running order for that class, and you will miss your turn if you are not available by the time volunteers are ready to build the ring for the next event. Ring will close and judge will leave at the announced time. It will not be possible to credit the missed run for another event or day. A "judge's briefing" will be given to the class, as usual.
- The Secretariat/Registration table will be manned throughout the day.
- If you run more than one dog in the same class, the running order will allow for at least 1 other dog between each dog, so that you have time to reward your dog and get the next dog ready.
- No choke, prong or electric collars are permitted within proximity of the ring.
- A dog eliminating in the ring is not cause for disqualification, however the dog incurs a 5 second penalty and a **\$5 fee will be charged to the handler for each soiled bale** that must be removed from the ring.
- Dogs that are entered in a sanctioned event cannot run FEO or a fun run before their sanctioned run, and can do one FEO run per event AFTER their sanctioned run only. Failing to respect this rule leads to disqualification for all events offered for the day, with no refunds given.

Entries and Closing Date

Entries must be received by June 1st; no late registrations will be accepted. Only electronic entries accompanied by e-transfer will be accepted. Entries may be taken day of trial if the event is not full. Move ups will be allowed.

Any changes to entries, including cancellations, will be accepted until closing date. Changes must be made to the Secretary by e-mail. Cancellations received after closing date will not be eligible for a refund of fees unless accompanied by a veterinary certificate. All cancellations are subject to a 10% administration fee.

Check-In

Check-in will be from 8:30 a.m. for the morning classes. First dog in the ring at 9:00 a.m.

Awards

Dogs that qualify will receive a flat Q ribbon for each Qualifying run.

Dogs will be judged in their specific breed group as determined by the Canadian Kennel Club (CKC). For the mixed breeds, the owner chooses the most representative group depending on their dog's attributes. A judge may reassign your dog if the choice of breed is considered truly unfitting. A judge can also help you in choosing the best suited group for your mixed breed dog if you are unsure. Top 3 group placements will be awarded a flat ribbon.

INSTINCT TITLE: The Barn Rattling, Brush Hunt or Trailing and Locating Instinct Title will be granted to novice dogs who qualify in one of their first two runs ever in each discipline. Dogs earning the Instinct Title will receive a rosette.

TITLES: Dogs achieving a title will receive a rosette.
