(All Breed Heart & CERF will be offered Sat Aug 2 only)

**** HEART Auscultation – Dr. Eric deMadron, ACVIM Cardiology, ECVIM ****

**** CERF Eye Exams – Dr. David Tinsley, DVM, MS. Diplomate ACVO ****

(Dr Tinsley will offer consult exams at an extra charge BY APPOINTMENT ONLY)

**** Pigmentary Uveitis Ultrasound – Dr. Wendy Townsend ****

(This exam will be offered at NO CHARGE to further Dr Townsend's valuable research)

Pigmentary Uveitis is a serious hereditary eye disease that is specific to Golden Retrievers and is becoming more commonly diagnosed. It can be progressive and painful so early diagnosis and treatment is imperative for not only breeders but for ALL Golden Retriever owners. More info at <http://www.grca.org/health/uveitis2.html>

Dr. Townsend is coming to us through the collaborative efforts of the Ottawa Valley Golden Retriever Club and the Golden Retriever Club of Greater Toronto. She will be available at the GRCC National Specialty as well as the following weekend at the Golden Retriever Club of Greater Toronto Regional Specialty.

For information pertaining to Pigmentary Uveitis and the upcoming clinics and presentations, please contact:
