EARNING POINTS

The dog's time to complete the 100 meter dash is converted into Kilometers Per Hour (KPH). A handicap system is applied to a dog's KPH to determine the number of points earned. The handicap system is based on the height of the dog at its withers:

- 18" or greater - handicap is 1.25
- 12" up to less than 18" - handicap is 1.5
- Below 12" - handicap is 2.0

Points: 360 divided by the dog's time produces the dog's KPH which is multiplied by the dog's handicap to result in the number of points earned. Ex: A 16" dog takes 20 seconds. $360/20 \text{ KPH} \times 1.5 = 27$ points. Points are rounded to the nearest whole number. Please be sure to enter the correct height category

- A qualifying ribbon will be awarded to each dog that achieves a score.
- A rosette will be offered to new title holders.
