PERTINANT CKC RULE CHANGES

There have been a number of CKC rule changes (effective January 1, 2014) that result in changes to the classes that are offered in these trials. This is not meant to be a full disclosure of all the rule changes. This document addresses those changes that directly impact competitors entering these trials.

- ◆ **Canine Companion Numbers:** Effective July 1, 2014, the CKC accepts mixed-breed dogs into its' Agility, Obedience and Rally Obedience trials. Details are provided on page 3 of this Premium List. The Canine Companion Form is attached to the end of this Premium List.
- ◆ **Class Changes:** The A and B levels have been dropped in both Novice and Excellent levels. There is now simply a "Novice" level. The highest level is now called Master Excellent (instead of Excellent B).
- ◆ **New Games:** CKC has introduced two new games: **Points and Distance (PAD)** and **Steeplechase**.
 - **PAD** is a game which involves gathering points and completing a distance challenge within a 35 second time frame. A detailed description of the game is attached to the end of this Premium List.
 - **Steeplechase** is a fast-paced course designed to test the dog's ability to negotiate a jumpers-style course which includes the A-Frame and Weaves. Steeplechase is open to all levels (there are no "Novice", "Intermediate", or "Excellent" levels in Steeplechase). All dogs compete together. The Steeplechase rules are attached to the end of this Premium List.

Steeplechase

◆ Object of the game

- Steeplechase is a fast paced game designed to emphasize speed and control on a jumpers style course which contains the two most dynamic obstacles – the A frame and Weave Poles. The course design requires constant flow and a design that encourages speed throughout the course, while testing the handler's control.
- The class is not part of the Agility Master Championship titling program but offers stand alone titles.

◆ Eligibility

- Steeplechase is open to any dog eligible to compete in any CKC agility class regardless of previous levels of achievement.

◆ CourseTimes

- The following criteria is used to calculate SCT for all dogs (Note:There are no Levels in Steeplechase)

Jump Height	Yards per Second
8" (20.3cm)	3.0
12" (30.5cm)	3.25
16" (40.6cm)	4.0
20" (50.8cm)	4.0
24" (61cm)	4.0

- Course will have a SCT decided by times and yardage (see Chart)
- To calculate SCT for Selected and Veteran dogs add 20%.

◆ Qualifying Requirements

- To qualify the dog's time must be under SCT.
- Off courses will result in NQ runs and scored as Failure to Perform (F).
- Missed contacts and dropped bars will add 5 seconds each to the dog's time
- Time plus faults – faults will be added to the dogs time. If the combined course time and faults is equal to or less than the SCT, the dog qualifies.

◆ Equipment

- Required Number of obstacles: 18 -20 obstacles.
- Mandatory Equipment: A-frame (set at 5' for all classes and jump heights) and 12 weave poles, one spread jump, 9 winged jumps and/or non-winged jumps, open tunnel/s (minimum 1 entry, maximum of 3 entries). Either the A Frame or the Weave Poles must be taken twice.
- Optional Equipment: panel jump, tire jump.
- Equipment not allowed: Dogwalk, Teeter, Closed Tunnel and Table.

Points and Distance - PAD

- ◆ **Object of the game** - The object of this game is to accumulate as many points as possible within the 35 seconds allowed. Points required to qualify are listed in the table below. You plan your own course except for the Distance Sequence (Bonus) which must be completed correctly within the 35 sec to qualify and earn the bonus points. Your score is the total points earned minus one point for each full second over time (35 seconds). Placements are determined first by points earned and then by fastest time.

- ◆ **Refusals** are only called during the Distance Sequence if they occur after the first obstacle has been taken. (There are No Refusals for the rest of the course). If an obstacle is repeated back-to-back or faulted, no points will be awarded.
- ◆ **Jumps:** (Six, preferably Winged Jumps): Point value of 1. These may be taken in any direction. Each jump may be taken more than once, but not back-to back. Up to six points may be earned with these jumps. Additional 1 point jumps may be taken for flow on course, but they will not count for points. No dropped jump bars will be reset.
- ◆ **Other Obstacles:** Other obstacles, including other jumps, are assigned point values of 2 through 10, as indicated. If the number appears at the centre of the obstacle, it is bi-directional and points may be earned in either direction. Otherwise, it is unidirectional and may only be taken for points in the direction indicated. Obstacles may be repeated for course flow but will not count for points more than once. If an obstacle is engaged with all four paws in the pointed direction, and it is faulted, it may only be reattempted for points if at least one obstacle is taken in between. The only exception is weave poles, which may be repeated immediately from the same end for points but all poles must be completed correctly to earn points. If a unidirectional obstacle is taken in its unpointed direction, it may only be repeated in the correct direction for points if another obstacle is engaged first.
- ◆ **Dual pointed Obstacles:** One obstacle may be given a different point value in each direction and may be taken once for points in each direction but not back- to-back. Even if a fault occurs in either direction of such an obstacle, the obstacle may only be repeated for points if at least one other obstacle is engaged first. If the weave poles have dual values (one for each end) all poles must be completed correctly in the designated direction to earn the assigned points.
- ◆ **Combination Obstacles:** Two or more obstacles may be grouped as a combination with one point value. If any part of this combination is faulted, another obstacle must be engaged before reattempting the combination for points.
- ◆ **Distance Sequence (Bonus):** The Distance Sequence may be taken at any time during your run. Scoring begins as soon as the dog correctly completes the first obstacle in the Distance Sequence. You must complete all the distance obstacles correctly to earn the 20 Point bonus. You also earn each obstacle's point value in addition to the bonus. Once the first obstacle of the Distance Sequence is completed, any faults will negate the 20 point bonus, but you may still earn points for each correctly completed obstacle in the Distance Sequence. If the Handler steps on or over the line while the dog is in the Distance Sequence, the bonus points will also be negated. The handler may step over the line once all four paws have landed on the ground after the last obstacle of the Distance Sequence. The dog and handler may pass through the line of the Distance Sequence on the way to other obstacles, but as soon as the dog completes the first obstacle in the correct direction, a fault will be called if the handler is within the zone and no bonus points can be earned.
- ◆ **To End the Run:** A horn or whistle will sound at 35 sec. but the time continues until the dog passes through the uprights of the finish jump or enters the finish tunnel to stop the time. Once the finish obstacle has been taken the run ends, even if this obstacle was taken unintentionally or before the send was attempted.
